Explanation on why I want to be 2nd Vice President of TGCA:

TGCA has profoundly shaped my professional journey, and I have proudly served the organization through all-state and sport-specific committees, as well as my current role on the Board of Directors. My background coaching multiple sports at both smaller and larger institutions gives me a well-rounded insight into the unique needs of our members. I am eager to leverage this experience to help ensure TGCA remains the definitive leader for coaches of female sports across the state. TGCA represents a true coaching family, and I am entirely committed to serving on the Executive Board to support its continued growth and success.
